1U MPO MTP 144C High Density Patch Panel

1U 144 Fiber ODF patch panel consisted with an aluminum rack and ABS modules is a light weight high-density solution designed for data center with compact MPO/MTP to LC modules loaded. The high capacity patch panel provides a fast and simple plug and play installation to support high-speed fiber distribution and data transmission.

Features:

--Compact size MPO-LC module to save space

--Each module can support max 24 LC ports to MPO/MTP, max 144 fiber to be installed

--Drawer type patch panel for easy installation and cable management

--Aluminum material for the rack in light weight

--ABS plastic MPO-LC module

Rack Specification:

Capacity	144 Fiber
Dimension	482.6*1U*420mm
Module Qty	6pcs
Adapter Type	LC Quad with flange 6pcs, MPO/MTP 2pcs
Fiber Cable Length	350mm
Module Size	136*66*36mm
